Dear Sir:

We believe that it will be in the best interest of the Government to permit us to show equipments being developed under our contract with you to the following personnel at the National Security Agency, Fort George G. Meade, Maryland:

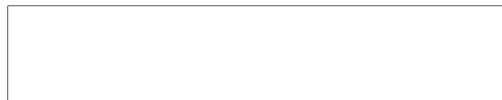

50X1

These gentlemen are presently developing more sophisticated space saving modular techniques for equipments under their jurisdiction.

We have tentatively arranged a meeting at our plant for October 21st to show the extent of our packaging techniques in all of our other contracts and would like, of course, to show them this work since it is of a far more advanced nature.

We would appreciate an expeditious reply.

Very truly yours,

50X1

Plant Manager
